## The Fair Housing Center of Central Indiana (FHCCI) advances our mission through four main programs:

### Counseling

The FHCCI provides housing counseling and referrals to individual housing consumers and housing providers. The FHCCI connects people with resources to help them locate housing options; to stave off eviction, foreclosure, or instability; to identify or access available housing programs; and to combat or address conflicts or inequities with their housing providers and/or housing services.

### Education

The FHCCI provides education programs and outreach activities to housing consumers, housing providers, and housing-related services. The goal is to increase fair housing knowledge, as well as inform about the barriers or challenges to housing equity and opportunity. Through these efforts, more compliance with fair housing and other critical laws will occur.

### Inclusive Communities

The FHCCI engages in neighborhood stabilization and community investment work; combats systemic factors impacting housing choice; advocates for strong fair housing planning; brings awareness of market forces impacting housing consumers; and offers activities and programs to assist persons, neighborhoods, and communities who have been impacted by inequities, disinvestment, or unequal housing opportunity.

### Public Policy

The FHCCI works to enact laws that will promote open access to housing; increase the awareness of policy makers and regulators about the issues associated with housing disparities and inequities; works with local, state and federal legislators to ensure strong housing laws and policies; and collaborates with fellow organizations to advance housing needs.
